

## **PATIENT INFORMATION**

**If you have Medicare, Blue Cross/Blue Shield, or Midlands Choice insurance, it is our office policy to file your claims. We will submit your claim to Medicare and the payment will be paid directly to the doctor, as he is a Medicare participating provider. The patient is responsible for the balance of the approved amount. We do not file supplemental insurance, unless special arrangements are set up.**

**Midlands Choice and Blue Cross/Blue Shield benefits will be paid to us. After your insurance pays, the remaining balance is your responsibility.**

**If you carry another insurance, and you have your insurance information with you, we will file the claim to your insurance carrier. Since we are not a participating provider with your insurance carrier, it is not our policy to contact carriers to establish why they have not paid or why they have paid less than originally indicated, we will be glad to assist you.**

**If you have no insurance coverage, an extended payment plan of regular payments can be arranged with the office.**

**If you have Medicaid, and/or if you have an insurance that requires a Co-pay, we do request that the Co-pay be paid at the time of your visit.**

**If this is a work injury, your employer needs to be notified, and we will submit this to them for it to be filed with their workman's compensation insurance.**
